Portfolio : <https://bit.ly/armanta-portfolio>

Summary Profile

Detail-oriented Junior Frontend Developer proficient in React.js, Next.js, TypeScript, and modern CSS (Flexbox/Grid). Experienced in transforming UI/UX designs into responsive, pixel-perfect interfaces using Tailwind CSS, with strong expertise in RESTful API integration, state management, and performance optimization.

Skilled in Git, Vite/Webpack, and committed to writing clean, reusable code following industry standards. Passionate about building end-to-end features and eager to grow into full-stack development with knowledge of Laravel, GraphQL, and WebSockets. Strong communication with excellent problem-solving and teamwork abilities.

Education

Universitas Tabanan — Bachelor's in Information Systems (*Ongoing*)

Projects & Portfolio

Personal Portfolio Website Built with TailwindCSS showcasing personal branding and frontend skills. GitHub: Portfolio Repository

Armanta Transport Bali Developed a responsive company website for a Bali-based transportation service using React, TypeScript, Vite, and TailwindCSS

Technical Skills

- ES6, React.js, Next.js
- CSS3 (Flexbox/Grid)
- Build tools (Vite)
- Git version controll

Hard Skills

- RESTful API integration (Fetch/Axios)
- Wireframe to HTML/CSS slicing
- State management & error handling

- Web performance optimization
- Reusable code & libraries
- UI/UX to prototypes
- End-to-end web features development

Career Objective

To begin my professional journey as a frontend developer, applying my skills to deliver high-quality user interfaces and contribute to company success. My long-term goal is to expand into full-stack web development while continuously improving technical expertise and professional growth.
