SUMMARY

Detail-oriented Frontend Developer with hands-on experience building responsive, high-performance web applications using React, Next.js, and TypeScript. Proven ability to deliver production-ready websites for real clients, including a law firm and a transportation company. Strong focus on clean code architecture, pixel-perfect UI implementation, and web performance optimization. Currently pursuing a Bachelor's degree in Information Systems while actively taking on freelance projects.

EXPERIENCE

Freelance Frontend Developer

Self-Employed / Freelance

February 2026 - Present, Bali, Indonesia (Remote)

- Developed and deployed production-ready websites for real clients, including a law firm and a transportation company, translating UI/UX designs into responsive, pixel-perfect interfaces.
- Built a modern, multi-page portfolio website using Next.js, TypeScript, and Tailwind CSS, achieving a Lighthouse performance score of 95+ and ensuring optimal Core Web Vitals.
- Implemented RESTful API integrations, state management, and optimized web performance, reducing initial page load times and ensuring seamless experiences across mobile and desktop devices.
- Managed the full frontend development lifecycle from requirement gathering and UI implementation to testing and deployment on Vercel/Netlify.

PROJECT

Personal Portfolio Website

Personal Project • armanta-portfolio.vercel.app • May 2026 - Present

- Designed and developed a multi-page portfolio website featuring a modern Bento Grid layout with smooth scroll animations using Framer Motion.
- Implemented Next.js App Router, Server Components, and dynamic routing, achieving a Lighthouse Performance score of 95+.
- Built a reusable component library with shadcn/ui, reducing development time and ensuring UI consistency across all pages.
- Optimized images with next/image and implemented lazy loading, reducing the initial page load time to under 1.5 seconds.

Armanta Transport Bali Website

Personal Website • armanta-transport-bali.vercel.app • April 2026 - Present

- Built a responsive company website for a Bali-based transportation service, successfully increasing monthly visitors.
- Created a dynamic service catalog with real-time pricing display.
- Implemented a mobile-first design approach using Tailwind CSS, ensuring a seamless experience for the 70% of users accessing via mobile.

Yulin Law Office Website

Personal Project • yulin-law-office.vercel.app • May 2026 - June 2026

- Developed a professional corporate website for a law firm, translating Figma wireframes into pixel-perfect, fully responsive interfaces.
- Implemented multi-page routing with Next.js (App router), including Services, insight, About Us, and Contact sections.
- Integrated a contact form with email notification services, reducing client inquiry response time from 48 hours to under 2 hours.
- Optimized Core Web Vitals, achieving a Largest Contentful Paint (LCP) under 2.0s and a Cumulative Layout Shift (CLS) of 0.

EDUCATION

CERTIFICATIONS

Responsive Web Design Professional Certificate

freeCodeCamp • 2026

- Completed 300+ hours curriculum covering HTML5, CSS3, Flexbox, CSS Grid, Accessibility, and Responsive Web Design principles. Built 5 certification projects demonstrating proficiency in creating mobile-first, accessible web applications.
-

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Framework/library: React.js, Next.js, Tailwind CSS, Framer Motion

Tools and Technologies: Git, GitHub, Vite, Webpack, Vercel, RESTful APIs, Fetch API, Axios

Concepts and Practices: Responsive Web Design, UI/UX Implementation, Web Performance Optimization, State Management, Mobile-First Development
